MICHIGAN PEAT

Michigan Peat is 97% organic matter, weed free and contains almost 3% available natural nitrogen.

Michigan Peat is not a sphagnum or moss peat—but a sedge type peat that is decayed vegetation from extensive deposits, centuries old. It is rich brown in color and furnishes the “humus” necessary for greener lawns—stronger root systems—more abundant roses—blooms—flowers—healthier plants and vegetables.

Michigan Peat is an “organic soil builder” and easy to use. No screening and breaking up to do. It is finely textured, uniform and makes gardening a pleasure. It absorbs moisture and releases nitrogen as it decomposes. Michigan Peat combines the benefits of peatmoss, humus and chemical conditioners in one “all purpose” soil conditioner. It is in a class by itself.

Michigan Peat is now offered in five convenient size packages to fit your needs. Three new Michigan Peat Brand Products also available. Attractive polyethylene bags for counters.
